Dear Dr. Sanchez,

We have reviewed the attached letter from FPI regarding the renewal of their model F1500 / I1500 wood heater and determined that no changes have been made that would affect combustion and recommend that the renewal be granted. This report was revised and resubmitted to you back in May, for your convenience I have included a link to the revised reports below. The Certificate of Conformity has been updated to include the renewal date. Please let me know if you have any questions or concerns.
